

YUMA

We held a meeting at "Johnny's Other Place" which is owned by Jim Shaffer, vice-president of the local Arizona Liquor and Beverage Assoc. Twelve restaurant, bar, and convenience store owners attended.

Although most had some knowledge of the issue they were not fully aware of all the features of SB 1384. Those that had not already done so wrote letter at the meeting. They further agreed to fax Jim Buster's office on Tuesday and Wednesday in anticipation of a Thursday vote.

We called all of those who had expressed interest when we spoke to them last week but did not attend the meeting and asked them to write, call and participate in the fax program. Nearly all said they would.

If the vote is delayed we may be able to set up a meeting for this weekend with the Senator.

FDA

We are finally beginning to get some substantial results as another statewide group has agreed to mail their membership at their cost. This brings the total to 4 counting CSR. We should begin to get some good response from these mailing in the next week or two.

We will begin to get the grassroots aspect of our plan implemented as soon as we get the names that are generated by CSR.
