HONG KONG

Dear David

OBJECTIONABLE STEM

I enclose the latest thoughts on stem from Oriental tobaccos.

I think we will have to wait for further work. as mentioned in the paper, before we can determine the importance of this work regarding logs in cigarettes.

Please thank Lowell for the package of clothes I left behind.

I look forward to the minutes when they are ready. I know from our experience, these things take a lot of time to put together.

With best regards

Yours sincerely

G O BROOKS
