THE COUNCIL FOR TOBACCO RESEARCH-U.S.A.

PLANNING COMMITTEE, CTR
MEETING JUNE 11, 1972, New York

The planning committee CTR met at 9 AM, Sunday, June 11, 1972 before the continuation of the quarterly SAB meeting. All members were present, and Dr. Murray Senkus, ITC representative, Messrs. Hoyt and Ramm, Drs. Hockett and Nordsiek also.

Twenty-two informal proposals were considered, of which 4 had been taken care of already and 3 were too incomplete for action. Of the remaining 15, formal applications were advised for 8 and 6 were not encouraged to apply. The last, a staff proposal for a mouse model of emphysema was discussed both in the committee and subsequent SAB meeting, and action was deferred.

Two seminar conferences, on macrophages and carcinogenesis respectively, are to be organized. Meeting adjourned at 10 AM.

Respectfully submitted,

Sheldon C. Sommers, M.D.
Chairman, Planning Committee
