Text	Hello, I am hoping you can help me or point me in the right direction. I have been on a pain management program with the same meds for 15 years. I take Morphine Sulfate ER 100 mg. 3xdaily, and Hydrocodone 10/325mg. 6 daily for back up pain. I recently had a financial disaster, I lost my job, am awaiting disability, and divorced. Needless to say I am financially unable to afford my medications and looking for some assistance. If you can give me any advice or direction for any type of financial assistance I would be so grateful. I have no insurance. Thank you! Lisa
