**DSS:**

Good point re SAEs. Mary and Jan, did we have any in the TES?? I can't recall any. It's kind of a moot point, though, as this was not an interventional study, only observational.

**Importance:** High

Hi Mary,

I will be able to get the TES coordinator meeting slides to you no later than tomorrow. I have been out sick with strep but I promise to get these to you tomorrow.

Question

SAE reporting – How are SAEs reported? How were they reported in your previous study?

Thanks

Jenny
