31st August, 1966

I. S. Biggs, Esq.,  
Wiggins Teape Research & Development Ltd.,  
Butler's Court,  
BEACONSFIELD.

Dear Mr. Biggs,

Analysis of the flakes taken from the coating machine, which you sent to us on 9th August, were found to contain  $25 \pm 2\%$  of the p-phenyl phenolic resin.

Yours sincerely,

*WCA.*
