SPIRAL EMBOSsing OR FLUTING  
FOR CIGARETTE PAPER.

I hand you herewith a copy of a note I have today written to Mr. Hobson, together with a copy of the list of countries mentioned therein.

If you agree with my suggestion about the brief write-up of the process, I should be grateful if you would kindly let me have this, so that I can distribute copies to Selling Department Managers for the action as proposed by me. With the write-up, I think it would be sensible to send a specimen of the cigarette paper as embossed by the new process, and I would request you arrange to obtain for me a reasonable number of specimens for this purpose.

D.M. Wickes.
