

No, Texas needs Gore

Re: Kirby Cook's Aug. 1 letter, "First, fix Tennessee":

Sorry, Mr. Cook, shipping a couple of million "illegal aliens" to Tennessee will not improve the state of affairs here in Texas.

I have a better idea. Maybe Texans can ship Bush to Tennessee so our environment will improve, teachers' wages will increase, the wishes and desires of special interests will decrease, and a moratorium on the death penalty will be enacted.

Stop blaming immigrants; if you cannot find another scapegoat, ship out with Bush.
