

I.T. Co., Bristol

HRB/CB

2nd July, 1965.

STRICTLY CONFIDENTIAL

British-American Tobacco Co. Ltd.,
Westminster House,
Millbank,
London, S.W.1.

For the attention of Dr. S.J. Green

Dear Sirs,

P.E.I.

Confirming our telephone conversation of yesterday we enclose a draft statement on this subject that we think might usefully form the basis for a statement by you to the T.R.C.

You will see that this includes the bulk of the draft prepared by Dr. Felton, a copy of which he sent to us, with an addition summarising the work that we have done in the special context of producing low tar-normal nicotine cigarettes suitable for the U.K. market and tested under T.R.C. standard conditions. We hope that this draft covers the points agreed between Mr. Clements and Mr. McCormick and no doubt you will let us know in due course whether you wish to amend it in any way.

Yours faithfully,

Deputy Research Manager.

Enclosure.
