Subject: Chernobyl: a Bibliography of Internal Reports

A literature search was conducted in the Primary Central File database to identify documents that relate to the Chernobyl incident.

A bibliography of the papers that were identified in the search is attached. If you would like to receive copies of any of the papers that are listed in the bibliography, please contact the Primary Central File staff at X4414. If you have questions or need any additional information, please contact me at X2879.
