I JUST got a response back from my last Friday's email request.

It looks like these Morphine sku's will get to you either tomorrow or Monday and the Oxy apap 10/325 has already gotten to you. The Oxy 5 mg. and the Hydromorphone is M I A and no info tied to this email. I will ask Charity about those 2 sku's as well as the Morphine 15 mg.

Importance: High

HI Vic,

I allocated the below to KMI this morning, I emailed Hobart to see if they can go overnight today for tomorrow as well and will let you know when they get back to me. Otherwise it will go overnight tomorrow for Monday.

Overnighting the product is going to be a definite request but as important is a solid number that we can share with them on what is heading their way and on which day.

FYI regarding KMI's PO 20009. Just got in the system today.

There is 1 more item that they are completely out of and it's the Hydromorphone 8 mg. sku

FYI- Just finding out now there was a problem in the sending of PO# 20009 and it only got sent via CSOS this afternoon, so may not even be in your system yet.
