Hello Bonnie,

I just wanted an update on the Information Sheets we are still waiting on. The following are the only products we are still needing completed forms for:

| Supplier | Drug | NDC |
|------------------|---------------------|---------------|
| MALLINCKRODT LLC | OXYMORPHONE IR 10MG | 00406-1010-01 |
| MALLINCKRODT LLC | OXYMORPHONE IR 5MG | 00406-1009-01 |

Thank you,

Please see the attached emails with the information requested. I did not want to copy and paste these to avoid corrupting the files. Note the last file has information regarding 3 pending forms that need additional information for completion.

Let me know if you have any questions.

Thank you,
Bonnie

Bonnie,

We would like the entirety of the spreadsheet completed for each product listed. Previously, the Ethics & Compliance department had limited methods of record keeping for VAWD authentication, and now equipped with better resources we are compiling thorough validation records for each product Walmart currently supplies to the public as well as validating and recording any new products that it proceeds to onboard.

We appreciate your patience and understanding.

Thank you,

Thank you for the reminder, I was on vacation when this email was originally sent so this is my first time in seeing it.

- Since we supply this information with each product we have in your warehouse, do you need them again?
- Does this only apply to products that are in your warehouse?

Thank you,
Bonnie

1st Reminder: Product Information Sheets are due June 22nd.
Please have these completed for each item listed and email
them to HWPSAFE@walmart.com

See below for an overview of the new onboarding program Walmart is implementing for its prescription products.

You may email HWPSAFE@walmart.com should you have any questions regarding this alert.

Subject: ALERT // Information Required - Mallinckrodt Product Information

Overview

As you may well know, in August 2015, Walmart introduced a new program for onboarding prescription products shipped directly to Walmart owned Pharmacy Distribution Centers. This new program applies to any new prescription product that was not currently stocked within the Pharmacy DC and requires facility information disclosure for all facilities involved in the manufacturer, preparation, processing, packaging, labeling, storage, and distribution of prescription products.

At this time, Walmart is extending facility information disclosure to existing products stocked in Walmart's Pharmacy Distribution Centers prior to August 2015.

Supplier Action Required

For each item listed in the attached Supplier product list:

- Complete each tab of the attached PRODUCT INFORMATION SHEET
- Email completed PRODUCT INFORMATION SHEETS for each item listed to HWPSAFE@walmart.com by June 22, 2016.
- Once received, Walmart's H&W Product Safety will validate the information provided including validation of licenses and registrations with each issuing agency.

At Walmart, our commitment to our customers is unparalleled. We strive relentlessly to provide safe, quality prescription products to our patients helping them save money and live better.
