

PHILIP MORRIS INTERNATIONAL INC.

INTER-OFFICE CORRESPONDENCE

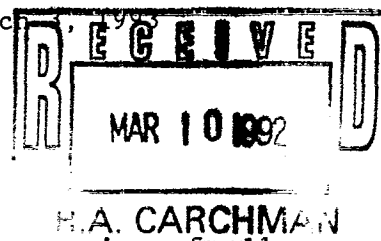

800 WESTCHESTER AVENUE, RYE BROOK, NEW YORK 10573-1301

TO: Distribution

FROM: Cesar Rodriguez

SUBJECT: TOBACCO LAWS AND REGULATION

DATE: March 1, 1993

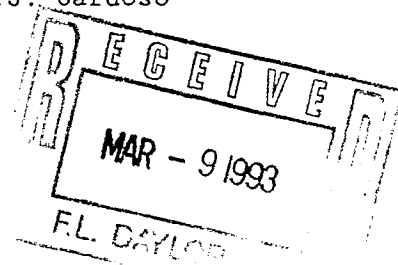

We have been asked to participate in a comprehensive review of all existing and proposed laws and regulations that may have an impact on ingredients, other components used in the manufacture of tobacco products and crop protection agents. In order to execute this review, it is essential that we be made aware of the laws and regulations from your market which address food additives, general consumer protection and tobacco products (ingredients and additives specifically). It is also essential that you keep us informed of future legislative and/or regulatory developments in these areas.

Please designate someone in your office to be responsible for this important project. He/she should contact Phil Gambaccini (914/335-7364) who is coordinating this project for the region. Phil is working with Richmond on this project and he will work with the individual selected to ensure timely receipt of information on current and proposed legislation.

Thank you for your cooperation on this important activity.
