Martin, Timothy G.

1st - Tim

From: Young, Tonya
To: Curtis, Lorraine; Allen, Wayne D.; Herko, Daniel; Jennings, Roger A.; McCarthy, Robert F.; Lane, Steven H.; Martin, Timothy G.
Subject: YSL Shipment Test
Date: Thursday, October 05, 1995 1:24PM

Attached is a spreadsheet with the data from the corrected sampling of the YSL product. This data shows that there is no significant difference in the YSL 99 mm production and the YSL test product. If you have any questions please feel free to call me at ext. 7249.
Tonya

→ Transition product
@ 98mm length
→ Production in old graphics;
w/ new blend, etc.

Implies that length increase to 99mm did
not have impact on crumbs.

Tim:

If no Δ why should
we spend \$ to
increase length?
