Memo from Leonard S. Zahn

11/10/70

16521
E7N

Dear Dr. Abelson:

I'm making a special effort with this advance copy because I believe the contents represent something important.

The sum involved is quite substantial, even without the current shortage of research funds, and will help good people ^{keep alive} ~~keep alive~~ and do good work. The grants by the Scientific Advisory Board are going, as always, to independent scientists who work and publish on their own.

I hope you'll find the release of interest and use.

Sincerely,

Leonard
