Dr. I. W. Hughes,
Brown & Williamson Tobacco Corporation,
P.O. Box 539,
Louisville,
Kentucky 40201,
U.S.A.

Dear Wally,

In view of your urgent concern with the future of tobacco reconstitution, I have discussed this with Mr. Macadam and we think it would be a good idea for Norman Willis, Roger Tringham and Peter Nicholl to give you the advantage of their thinking and recent experience respectively with FRT (71) Paper Making and Reconstitution generally. What we have in mind is that they should first spend a few days in Montreal to bring themselves completely up to date. A tentative itinerary would be:

June 24th to Montreal
June 27th to Louisville
July 3rd or 4th to London.

During their stay they would get a clear and detailed picture of your problems and hopefully would help in resolving them. Please let me have your reactions as soon as possible.

With kind regards,

Yours sincerely,

S. J. GREEN
