Glory Mill No.1,  
Wooburn Green, Bucks.

Dear Henry,

As requested by you during our conversation at Glory Mill last Friday, I am enclosing a list of the remaining stocks of Canadian PRT71C materials still being held at Canons Marsh.

You will notice that some of these materials are in small lots contained in one case such as the stem contained in cases 2577 and 2578.

I trust this is the information you require.

Yours sincerely,

  
A.W.G. Smeed
