KD

Do you think it is clear to Cheryl and Robin that we want to swap the B&G Clubs and minority grants portfolios?

A few things they have said/done give me the impression that they think we are still handling minority grants and that they want to be very involved in outreach to B&G. Obviously they have the connections with past B&G grantees, but reaching out to new clubs???

Let's talk for a few minutes when you return so that we can clarify what you and Cheryl discussed.

Thanks

Henry
