Subject: Pharmacy Unable to Order Exalgo

Steve,

Per our conversation a few minutes ago, the pharmacy in NYC called Seventh Elm Drug Corp is being told they can no longer order Exalgo. I just spoke to Elena, the pharmacist there, and she said RDC, their wholesaler told them that Mallinckrodt had an issue with them buying more oxycodone in the past few months so they would no longer be able to order Exalgo or other narcotics. Seventh Elm Corp services all of the big pain centers downtown and all of my biggest writers of Exalgo downtown including the Beth Israel pain clinic where Dr, Cruciani, my #1 target, speaker, and the director of the clinic, works. Elena would be more than happy to provide our company with any additional information they may want. She can be reached at 212-255-6100.

Thanks so much,

Caroline
