Hi Connie and Kathy,

Here is an updated copy of the deck. **I am still making a few live changes and it is being QCed for spelling, grammatical errors, etc in parallel. Please make any notes in comment boxes.** I have listed everyone's comments on here that I have not addressed. If it was a simply change, I have already made it. Some of these can also be done, however I thought they should be discussed first.

I have also attached the PDF with annotations to date. Please let me know if this style does not work for PARC. All references are saved to the title indicated in the margin. All pertinent information is highlighted on each reference page. (Prescription attached as an example)

Connie, there are a few items I need still listed below:

Chou Reference: Chou R, et al. *J Pain*. 2009;10(2):113-130  
References for slide 12- need IMS data with Nucynta incorporated  
Need images for slide 14  
References for slide 28, 29  
Fisherman Reference: Fishman SM, Papazian JS, Gonzalez S, Riches PS, Gilson A. *Pain Med*. 2004;5(3):309-324.  
Do we need permission to reuse the image on slide 30 (map of PDMPs)?  
References for slide 34 bottom half (is there a webster paper? I can't cite the powerpoint)

Look forward to speaking tomorrow!

Best,  
Mark
