Dear Doralee,

Inclosed is something that was near the filter in one of my cigarettes (Doral 100 Lights).

I smelled something coming from my cigarette. It didn't smell like cigarette smoke so I looked near the filter and found this little chip of something.

I have been smoking Doral 100 Lights since they first came on the market.

I am on your mailing list and have received coupon and free cartons everytime I get 70 packs.

My ID # is ID=992329316

Respectfully
