Hi Josie,

Please see the attached email, there are instruction from Tim Mack stating " RAM will need 3-5 days after they receive a full set of documents from Josie before the cargo is cleared for export. Then they would prefer Hobart ships on a Monday so that they can export on Tuesday and allow as much opportunity as possible for the order to clear and deliver in Ottawa while staying within the 96 hour window. RAM will give a "greenlight" once they have the goods cleared for export and will suggest a best ship date."

We need a call with Wayne, you, Rose and myself to ensure we all ready for this shipment. Could you set a call up for 1:00 EST today?

Thank you,

I will need to check with our reception security post, I sent it out in the interoffice mail yesterday and should have been received with your mail this morning.
