Marco:

I need a wholesale KA# for the following Costco locations to connect the customer number to.

Customer number	SAP number	Name
41G5737	75737	Costco #353, 3775 Hacks Cross Road, Memphis, TN
29G5703	75703	Costco Whlse #244, 156 State Route 10 W, East Hanover NJ

Hopefully the account manager has set the house up as a retail number. If not, get them to do this also.

In order for SFA to list the house as a KA#—a TSM will have to open as primary supplier. If you need directions for this -- let me know.

Thanks
Lisa
