Some new styles are being introduced this quarter. Two Red Kamel styles, FF 83 Box and LT 83 Box, shipped last week. These two styles appeared on the Daily Volume report under Camel as they should and are included in the Camel total. MRS Camel totals looked OK also, so I think these two styles are being picked up right.

Kamel Menthe FF 83 Boxes and LT 83 Boxes are to be introduced later this year, perhaps in June. I'll let you know the exact date when we have it.

Doral FF Menthol 83 Box is expected to start shipping the week of 3/18/96. Since this is a line extension like Red Kamel, it should work OK.

If you have any questions on these new styles, please let me know. My extension is 6200.
