comments on the model bill language.

the staff knows that we will not share as a model bill and the language should be used as a guide only. assume you will update the model bill language and resend. will send other comments to you as well.

Looks great, I have two observations:

- 1) Page 10, Penalties (B)- Should there be a defense for the employee who did not get trained?
- 2) Page 19, Statewide Uniformity- Should the word "use" be added to the last sentence?

**File(s):** BILL W/LIC REVISED 12/20/95

please read the enclosed asap. this is the latest version of the aaa model bill language which we need your feedback on asap.

i think after you read the language you may identify a few more states where we may be able to move proactively.

this model language has not been shared with the industry but will be probably next week so your immediate feedback is very important.

pam--pls print a copy for our meeting today.

thanks
