

Submissions

Purpose: To be prepared with appropriate witnesses, testimony, comments, etc. to meet the following deadlines:

6/20 Notice of Intent to Testify
6/29 Written Comments due
7/5 Testimony/Evidence due
7/12 Hearing

- 1) Issue Analysis (SHB, CB & S, C & B)
- 2) Written
 - SHB: US experts
 - SHB: European experts
 - C & B: European experts
 - C & B: US experts
- 3) Witnesses (combination of SHB, C & B, and other programs)
- 4) Preparation of risk assessment simulation
- 5) Preparation of testimony for PM

Areas included but not limited to in this area are: Lung Cancer and Cardiovascular Disease Epidemiology; ETS exposure analysis, Risk Assessment of ETS, Ventilation/IAQ issues, Meta-Analysis, Toxicology and Dose Issues, Chemistry differences between ETS, SS and MS, etc.

An addition for consideration is the "soft" science point of view; ie., sociological impact of a two-tiered workforce, workforce diversity in a global marketplace, etc.
