Morning Team Notes 10/5

10/2/98

Date:

Idaho--Bob Fackler requests a letter to smoker statewide to remind them of the key smoking issues, etc.

Lakeville, MA--The board of health has adopted comprehensive smoking restrictions that require physical barriers--floor to ceiling--in restaurants and bars but not on the way to the restroom. It is absolutely unworkable in many Lakeville establishments and one restaurantier thought many would struggle. A fire fighter noted that since everyone attending a public hearing in April had spoken in opposition to the ordinance that in approving it--with only two members present--this board choses to go against the voters.

tracy -
- will you
confirm?
and a
copy of
the ordinance

thanks
ashley
