

CHARGE NUMBER

6906

CAPITAL EXPENDITURE FORECAST 1976-1981.

^{IFS}
FACILITIES: 1) A second laboratory configured and equipped to handle mammalian cell experiments. ~~including~~ We visualize the equivalent of a 2-bay lab equipped with a Biohazard hood contained in a "room-within-a-room", such room to be constructed to ^{HEPA-} filter the air supply coming in and going out.

2) Can foresee a need for more lab space to accommodate additional freezer, refrigerator, and incubators, which ^{occupy} require a great deal of Floor space. ~~also~~ Such additional equipment (and space) will be required if we ~~are~~ continue to be successful in ~~making~~ making progress toward the attainment of our objectives.

PERSONNEL: An additional Research Scientist (with Ph.D.) will be essential. We will probably require one or two additional ^{assistant} ~~scientists~~ ~~scientists~~ to conduct routine assay work. ~~It may also be necessary to~~
